MCO Update for MCMAC Meeting - November 17, 2006

MOBIUS has a new Executive Director, Beth Fisher, as of August 1.

MCO is reviewing current processes, procedures, services, and facilities.

Office restructuring: Abbey Rimel has moved from the help desk to the User Services department under Mark Wahrenbrock to work on the MCO website.

Beth has assigned MCO staff to be primary/alternate liaisons to the MOBIUS advisory committees. The MCO liaisons to MCMAC are Janine Gordon and Adrienne Detwiler.

The past several months we have been working on replacing 7 cluster servers. The last server migration was yesterday.

Now that the servers have all been replaced we are ready to start scheduling the upgrades to Release 2006.

Upcoming YBP Informational Sessions:

Cape Girardeau (Dec. 7)
St. Louis Area (Dec. 8)
