MOBIUS

Linking Missouri's Academic Libraries

What is a Cluster?

The implementation plan of the Common Library Platform calls for 11 automated library systems linked together through a separate union catalog system. A system is defined as a single server running library software from Innovative Interfaces, Inc. Each of the 11 library systems will be shared by multiple institutions. The institutions that share a system are called a cluster with proximty as the primary factor for determining how the clusters are formed.

MOBIUS EXECUTIVE COMMITTEE

Chair: Sarah Cron, Southeast Missouri State University
Past Chair: Shirley Baker, Washington University
Chair-Elect: Valerie Darst, Moberly Area Community College
