MOBIUS Council Meeting
December 3, 1999
MOREnet Update

MOREnet requested an increase of $497k for inflation and $2M for new services. The $2M was approved by the CBHE Board, the $497k inflation was inadvertently dropped by CBHE staff and therefore not approved. The $2M is to cover:

- Increased Internet access and backbone network expansion to support increased traffic;
- Increase capacity to public higher education institutions based on demonstrated usage;
- Connections to additional distance learning site and existing video clusters;
- Consulting services to assist MOREnet sites in designing, implementing, and operating high capacity campus networks.
