MCDAC Report
January 30, 2008

The Catalog Design Advisory Committee met via Centra on November 16. Beth Fisher attended and requested that MCDAC begin writing documentation for FAQ's to be available at the MOBIUS website. Committee members have asked their clusters for any existing documents that might serve as a starting point for this project. The committee also discussed several features of the catalog, including clickable location codes and drop-down menus. It was suggested that a genre index be added to the MOBIUS catalog. Committee members have polled their clusters and found some support for this suggestion, which we will discuss at our next meeting in March.
