MOBIUS: Making Magic Happen

Magic Happens with MOBIUS

- An SMSU student makes an INN-Reach request
- The MOBIUS system processes the request. It looks at the institutions that hold the item and chooses one to request the book from (in this case East Central)
- East Central receives the request
- East Central notifies MOBIUS (and through MOBIUS, SMSU) that they will fill the request
- East Central pulls the book and puts it in the Lanter delivery to SMSU
- The (happy) student picks the book up
