

**Archway Cluster Meeting
St. Louis Community College Florissant Valley
Training Center 207
February 8, 2002**

Attendees: Ann Riley, Bonnie Sanguinet, Carol Warrington, Cathye Dierberg, Fran Stumpf, Jennifer Dodillet, Jill Nissen, Linda Bigelow, Loretta Ponzar, Patricia Williams, Stephanie Tolson

1. The agenda was approved with the addition of “screen design change when entering new PIN numbers”.
2. Minutes of the Dec. 7, 2001 meeting were approved.
3. 2001 Enhancements—acquisitions report is working. MCO is not sure whether p22 option 1 (putting 856 fields in Course Reserve records) is working
4. 2002 INN-Reach Enhancements—cluster decided to resubmit circ 20, 21, 22, and 23 from last year
5. Cathye Dierberg asked the Steering Committee to review the cluster information currently on the MCO Web site. The Committee agreed to list four committees—Steering, Coordinators, ArchTech, and Public Services. Cathye offered to do a spreadsheet with the corrected information. After the spreadsheet is approved by email, Cathye will submit it to MCO.
6. It was reported that some additional parameters needed to be added to EZProxy’s USR file. Bonnie had sent this information out by email prior to the meeting.
7. Committee reports
 - a. ArchTech had not met,
 - b. The Steering Committee acted on the following requests from the Public Services Committee.
 - Hardy Pottinger will be asked to work up an AKS screen based on the Colorado State example.
 - The Committee voted to add status to the extended display on the browse list.
 - Request to change our OPAC to the “arial” font was tabled until we find out how difficult the change is. Public Services will be asked to bundle this request with page redesign.
 - The Committee took Public Services’ recommendation regarding 856 field under advisement. The Steering Committee wants to see how all of the 856 issues sort themselves out.
 - The request to add a navigation bar to the OPAC pages should be packaged with Web page redesign.
 - In response to Public Services concerns about the pin number page in INN-Reach, the Steering Committee decided to support an enhancement request. This request

will cover: 1) making the pin number page more user friendly and asking that 2) pick-up location and “cancel if not filled by” carry over when the patron is verifying pin number.

- c. MAAC (MOBIUS Access Advisory Committee) report included the following information:
 - Recall/hold with INN-Reach requests is being tested. Table modifications were made and retesting will take place.
 - The changes Wash U presented which included placing a five-letter code at the beginning of the first line of the mailing address was approved by MAAC.
 - MCO presented the MOBIUS Web site redesign.
 - The process for INN-Reach 2002 enhancements was discussed.
 - d. MCDAC (MOBIUS Catalog Design Advisory Committee) report. Quest will go live in INN-Reach March 5 and Galahad March 18.
 - e. MERAC (MOBIUS Electronic Resources Advisory Committee) report
 - ABC/CLIO—not everyone will renew. The committee does not know how this will affect costs.
 - Education and Applied Science and Technology will be offered as part of the Database Cafeteria Program.
 - Discounts from the Vendor Direct Program vary from one vendor to the next.
8. Joan was at an Executive Committee meeting so there was no report from that Committee.
9. Next meeting will be Friday April 12, 2002, 9:00 a.m. at the St. Louis College of Pharmacy.
