Meramec Campus – St. Louis Community College

Attendance: Abby DeShane (STLCC-WW), Sarah Geels (STLCC-MC), Ying Li (SCC), Lisa Farrell - chair (ECC), Joanne Galanis (STLCC-FV), Teri-Ann Wallace (STLCOP); Joette Klein (JC); Kirsten Young-Abotsi – Archway site coordinator (STLCC-HPIR).

The meeting was called to order at 9:30 a.m.

Additions to the agenda: Committee charge review, Change in patron login page, Removal of gray loading background, Revision to 856 display for electronic resources.

Introductions of all committee members were made.

Discussion items:

Limiter option on front search Archway page: – After a discussion about large result sets (with the inclusion of e-books) and the needs of our students in searching our catalog, it was decided that we would request that the gray box behind the search be expanded to include checkboxes for the following items: Books, ebooks, DVD, Blu-Ray, VHS, streaming video, music CD and book on CD. If possible, we would like the DVD, Blu-Ray, VHS, and streaming video options to appear when an option for "Media" is selected, and the music CD and book on CD options to appear when an option for CD is selected.

These options will be in the Archway scope only, but can be brought into institutional scopes at the request of individual institutions.

Lisa Farrell will convey this request to Steve Stroehl at MCO.

Suppress item records for ebooks – Since the 856 links have already been suppressed for items outside a particular scope (e.g. links to SCC electronic resources won't display in the STLCC scope), we decided there was no need to also suppress item records for ebooks.

Remove "Copies" term for ebooks – Some people would like to see the word Copies go away in records where the item information is suppressed. However, we believe that if Copies is removed from those records, it will be removed from all records.

Change in patron login page – The suggestion to bring the Archway ID Help information back into the Patron login page was unanimously approved.

Kirsten will convey this request to Megan Durham at MCO.

Removal of gray loading background – Currently a dark gray background displays as long lists of title are loading (e.g. STLCC's Kindle records which list all titles loaded on the e-reader). Megan Durham had removed this background on the staging server. Lisa demonstrated the loading without the gray background and it was unanimously decided that background could be removed.

Kirsten will convey to Megan that we want the background removed.

Revision to 856 display for electronic resources – It was decided we would add a line of space between the bib record information and the first line of the 856 display. We also decided to change "Connect to" to "Online at."

Kirsten will convey this request to Megan at MCO.

Committee Charge Review: We reviewed the charge as posted on the MCO website, and will make the following changes:
- o All references to SLCC should be changed to STLCC.
- o All references to "chair-elect" should be changed to recorder.

We also discussed membership changes that will need to be made.

Lisa Farrell will convey the requests for changes to MCO.

Adjournment - The meeting adjourned at 11:30.

Kirsten Young-Abotsi, recorder.
