

August 14, 2003 Arthur Public Services Committee Meeting  
Minutes

The Public Services Committee met at William Woods in Fulton. Attending this meeting were Nina Stawski –Stephens, Lois Marshall – Lincoln, Angela Gerling – Westminster College, Corinne Caputo – IT staff at Westminster, Tena Barratt – William Woods, and Cindy Wyatt - Missouri State Library.

Tena had worked on several logos. We critiqued them and compared them to the logos created by Jenny at Westminster. Kudos to both for a job well done. We chose 3 to send to the directors, with some modifications. 1. Sword in Arthur logo. We would want to say “library” instead of “union” catalog. Also, we want a little place between the sword and the text that reads “A Mobius Library Catalog.” 2. Combination of the logo Nina did with the rock and sword showing in the background. Tena will work on creating it. 3. Jenny’s logo with the sword making the “T” in Arthur. We would like to have a different “h” that looks less like a “b” and to use the sword that Tena created. Tena will email the sword file to Angela. The logos will be sent out to the committee for approval before sending to the directors.

We critiqued different pages of the Arthur redesign:  
Homepage: Move Frequently asked questions under Arthur collections and call it “FAQ.” Alphabetize the schools in the list. For the Search Mobius catalog link, use white font on blue bar. Make quick search like the quick search box on the search options page, remove the top bar and make the remaining two bars the same size.

Search Options: Under options, move the FAQ link. Use Verdana for all hyperlinked text.

Keyword Search: Put it all in one box that is left aligned. Make the entire search box fit on one page. Get rid of limits and say “select options” if appropriate. Push out FAQ further out to end of icon. Change “Scope” to “Library.”

Results page: Less space at the top of the page. We would like a darker blue for the buttons, but will let Hardy fix the buttons. We wish to get rid of the blue border around the results page and add a gray border. Add another blue bar and under it put Other Options, View Own Record, and FAQ.

View Your Own Record: We just realized that it is up to us to revise this page. We like Bridges page. We would put logos on the top.

Request Item page: We like this like Bridges as well. We would add a list of all campus ID’s to the web page to make requesting them a little easier.

We should look at the key word page and see if we want to add or tweak as far as content goes.

We wish to see the pages one more time before Lois sends them to the directors. We will ask the directors to share the pages with their staff for further feedback. If we haven't heard from them by September 15th, we'll assume everyone likes it.

The next meeting will be to meet with Hardy to talk again about getting the page coded. We will tentatively schedule for October 2, 2003 at MCO from 2:00-4:00pm.

Respectfully submitted,  
Cindy Wyatt  
Missouri State Library
