

BRIDGES CLUSTER SITE COORDINATORS MEETING MINUTES

April 27, 2001 COVENANT SEMINARY

PRESENT: Jim Dutton, Robin Kespohl, Per Almquist, Linda Orzel, William Toombs, Shawn Strecker, Jean Rose, Melissa Belvadi, Fred McKinney, Eileen Condon, and Ellen Elicieri

MCO UPDATE:

Shawn reported on the Appropriation Conference Committee. The House is for the appropriation; the Senate is against it. MOBIUS is still optimistic. Private schools are asked NOT to contact their legislators.

LONG RANGE PLANNING COMMITTEE:

The committee continues to work on a draft proposal.

MOBIUS ACCESS ADVISORY COMMITTEE:

Robin and Ellen gave the report on the Access Advisory Committee.

Each institution can choose between 10 items and 20 items for undergraduates. Faculty, graduates, and staff are still at 20.

Load balancing will be changed. Everyone is equal except the lowest, which is currently WILO. The status of "lowest" will continue for six months.

Lost book notices have been changed. The first notice is 5. The second notice is 15. The bill notice is 25. Each institution must have its own cluster rule to customize the notice text.

Missouri's public libraries are working with Lanter to set up a delivery system.

The Committee wants to encourage libraries to encourage patrons to use MOBIUS rather than traditional ILL.

CIRCULATION PARAMETERS:

The e-mail source login is usually circ. The e-mail address is for bounced e-mail addresses. Departmental e-mail is preferred since it likely to be checked more frequently than individual e-mail.

WEBPAC OPTIONS:

BODYPARAM – This is done by Hardy when he creates the webpages.

CLEAR_PRIVATE_INFO – Don't cache info – True

CANCEL_BOOKINGS – Patron can cancel some/all bookings. No one else has turned on patron booking. – True The cluster is interested in self-booking (Lindenwood, Eden-Webster, Fontbonne)

FRAMEURL_PAT – Size of upper frame – Decision to use 25 – 75

NETLIBRARY OPTIONS

NETLI_ASK – False

NETLI_LINK – Use the given examples – Go to netLibrary Preview/Check this book out of netLibrary

NETLI856TEXT – Link to web version

HOTLINK TO LOCATION – Give Hardy location and URL you want to link to. If you don't have a page, but want to create one, please use your location code in the URL.

AVS_RELEVANCE_FORMAT – Change from percentage to stars which Shawn had suggested at the April 20th meeting.

RESET SCOPE – Yes resets scope ; no does not reset scope – Cluster decided yes.

LOCKSCOPE – If this is set and you do an INN-REACH search, it will not check within cluster.

AUTOMATIC PATRON REQUEST PROCESSING:

1. Turn on

2. No

3. Yes ; 90 days

4. Yes

a. Will decide at May 4th meeting. This does not need to be used for rules which are blocked. If cluster would like to do this by location, a message can be given. Each library is to decide what it would like to use here & discuss it at the next meeting.

b. Ignore

c. Comes from status

(1) \$ Lost & paid

(2) o Library use only

Cluster will create p (In process) and b (At bindery), but not block.

d. Cluster wants "Cancelled orders are unavailable for request". Cluster does not want "On hold orders are unavailable for request".

e. No

f. Decide next meeting

g. Discuss next meeting

5. Ignore

6. Ignore

Next meeting bring location codes & anything else you want to block.
