

## WILO Catalogers Committee Meeting Minutes

February 8, 2010

### MCC-Penn Valley Library

Present: Cheryl Couch-Thomas (Wm. Jewell), Susan Beyer (Midwest Baptist), Catherine Eilers (Saint Paul), Ted Ostaszewski (MCC)

The minutes for the Committee meeting of Oct. 21, 2009 were approved with 2 corrections:

- Under Old Business, the first entry should read “there needs to be the appropriate code in ACODE2”
- Under Old Business, the second entry should contain the new MCC telephone prefix (604) for all campuses

Catherine Eilers reported on the MCDAC meeting held online on Jan. 29, 2010 (Ted Ostaszewski and Dennis Goodyear also attended):

- There was no report yet from the group working on authority control
- The new MOBIUS catalog web design was available for preview on the staging server
- Indexing of more genre headings (MARC field 655) is possible, now just those with 2<sup>nd</sup> indicator 7 are indexed. The inclusion of those headings with 2<sup>nd</sup> indicator 0, 1, and 2 was discussed. MCO will look into what is necessary to get this done.
- Jim Dutton reported that new indexes for more standard numbers will be added to the MOBIUS catalog
- Document review is done, templates have been updated and should be used
- Purchase and implementation of the Local URL product has been tabled
- Longer location labels have been proposed and a spreadsheet containing suggested changes is available. The fields would be more self-explanatory of the item locations in the MOBIUS catalog and the clickable locations would be removed. Individual libraries should check the proposed list of new labels and make any changes they want and send them to MCO.
- Jessica Hammond is the liaison from MCO office to MCDAC, with Justin Hopkins as her backup

#### Unfinished Business

- Encore is now live at Midwest Baptist. They are still working on implementation of its features

#### New Business

- The group agreed to implement the new genre heading indexes in WILO if free, would need to reconsider if there is a cost
- The longer location labels were approved for use in the WILO catalog when the individual libraries submit their final changes to the MOBIUS list

- Ted Ostaszewski reported seeing some Canadian authority headings in the WILO catalog, reported them to Christopher Gould at MCO
- The next MCDAC meeting is scheduled for April 9, 2010, 2pm-4pm

The next WILO catalogers meeting was scheduled for April 19, 2010, 9:30am, at MCC-Penn Valley library
