

<b>Members Present:</b>		
Ethan Cordray	Arthur	Lincoln University
Bryan Dunlap	MRRL	Missouri River Regional Library
Megan Durham		MOBIUS
Jim Dutton	Quest	University of Central Missouri
Renee Gorrell		Goldfarb School of Nursing @ Barnes-Jewish College
Patricia Logsdon	WashU	Washington University (Olin)
Andrew McGarrell	Towers	Missouri Western State University
Ted Ostaszewski	Kansas City	Metropolitan Community College-Kansas City
Denise Pakala	Bridges	Covenant Theological Seminary
Kathleen Schweitzberger	MERLIN	University of Missouri-Kansas City
Stephen Wynn	Lance	Truman State University
Anna Zaidman	SLU	Saint Louis University (Pius)
<b>Members Absent:</b>		
Carol Bennett	Archway	St. Louis Community College
Renee Brumett	SGCL	Springfield-Greene County Library
Michael Davis	Camden County	Camden County Library
Phyllis Holzenberg	SWAN	Drury University
Melissa Hopkins	Galahad	Mineral Area College
<b>Guests or Proxies Present:</b>		
Shirley Moreno	Archway	St. Louis College of Pharmacy
Richard Pitaniello	Lance	Truman State University
Cathy Roeder	Galahad	Southeast Missouri State University
Steve Strohl		MOBIUS
Lindsey Taggart	SWAN	Forest Institute of Professional Psychology

1. Call to order and introductions  
The meeting was called to order. Everyone in attendance checked in.
2. Adoption of the agenda  
The agenda was adopted with no additions.
3. Approval of minutes from January 10, 2014  
The minutes were approved as written.
4. Information items  
None
5. Old Business
  - Email discussion on suppressing RDA MARC tags for non-book materials showed no strong feelings. This means that the 34x and 380 fields will be displayed in the MOBIUS catalog. If this becomes an issue in the public display we can revisit the issue.
  - Enhanced Matching program from Innovative: any updates? The MOBIUS Office is still looking at this product and how to make it work for the Inn-Reach catalog. The III document about enhanced match point will be placed on the MCDAC web site. We **asked for volunteers to create a small work group** (Kathleen and Stephen are on this group) to explore how to make this work best for the MOBIUS environment to create a friendlier single record with multiple holdings and also to avoid merging different formats into one record whenever possible.
  - The Inn-Reach Best Practices Task Force met on April 2 to review the charge and make preliminary recommendations for a Best Practices guide for adding content to the union catalog. The first question the TF tackled was discussing if the Inn-Reach catalog is/should be a catalog of available items or a discovery tool. The MOBIUS Office plans to use Encore as a display filter for the Inn-Reach catalog. As Encore is considered a discovery tool, the TF concluded that the catalog should be seen as a discovery tool and member libraries should contribute as much material as possible to the catalog. We recommended that III needs to work to find a way to designate "requestable items" only with a button. Materials that are not requestable could NOT be requested via Inn-Reach. Donna shared with the TF 2012 data on what each cluster library is contributing and not contributing by item type and number of items. She will have this data rerun for current information and then it will be sent to each cluster library to review and explain its current guidelines for contributing or not contributing. **The cluster representatives need to share information about this assignment as the data should be sent soon.**

## 6. New Business

- Backstage offer to re-master records for clusters who submit an RDA profile. Pros and cons for clusters, and is this applicable to MOBIUS?
  - Bridges: working on its RDA profile right now;
  - MERLIN re-master is probable;
  - Lance is curious if any decided not to re-master;
  - Archway has started re-master (been doing it for one week, receiving daily reports);
- What are other libraries doing about authority reports, especially with all the e-books we are now adding:
  - MERLIN does not send out e-book records in big vendor collections for authority work;
  - Lance does have a script to send these to Backstage but it is a low priority to do the manual work with reports
- Authority control for Inn-Reach (Strohl): Should MOBIUS continue to load authority records annually with the advent of Encore interface as a discovery layer? Currently on the Millennium platform it takes Christopher 3-6 months to load the annual file. The cost of the file is \$6500 a year plus MCO staff time loading. The Discovery interface will be the future default and the webpac/classic catalog interface will be secondary. We are the only Inn-Reach installation loading authority records. Historically, we decided it was a good idea. We could revisit this decision if we cease loading-- it is not irrevocable. How are authorities currently being used in this environment?

Denise: what is most valuable is not the death date, it is the see and see also references. A discovery service makes liturgical uniform titles hard to find. She teaches the use of see/see also references for liturgical uniform titles to find materials in advanced library instruction.

Encore does not display references as WebPac Pro does but it does show the established terms in the facets (see attached screenshots at end of the minutes)

If you wish to test the Encore version of the MOBIUS catalog, use this link:

<http://encore.searchmobius.org/iii/encore/?!lang=eng>

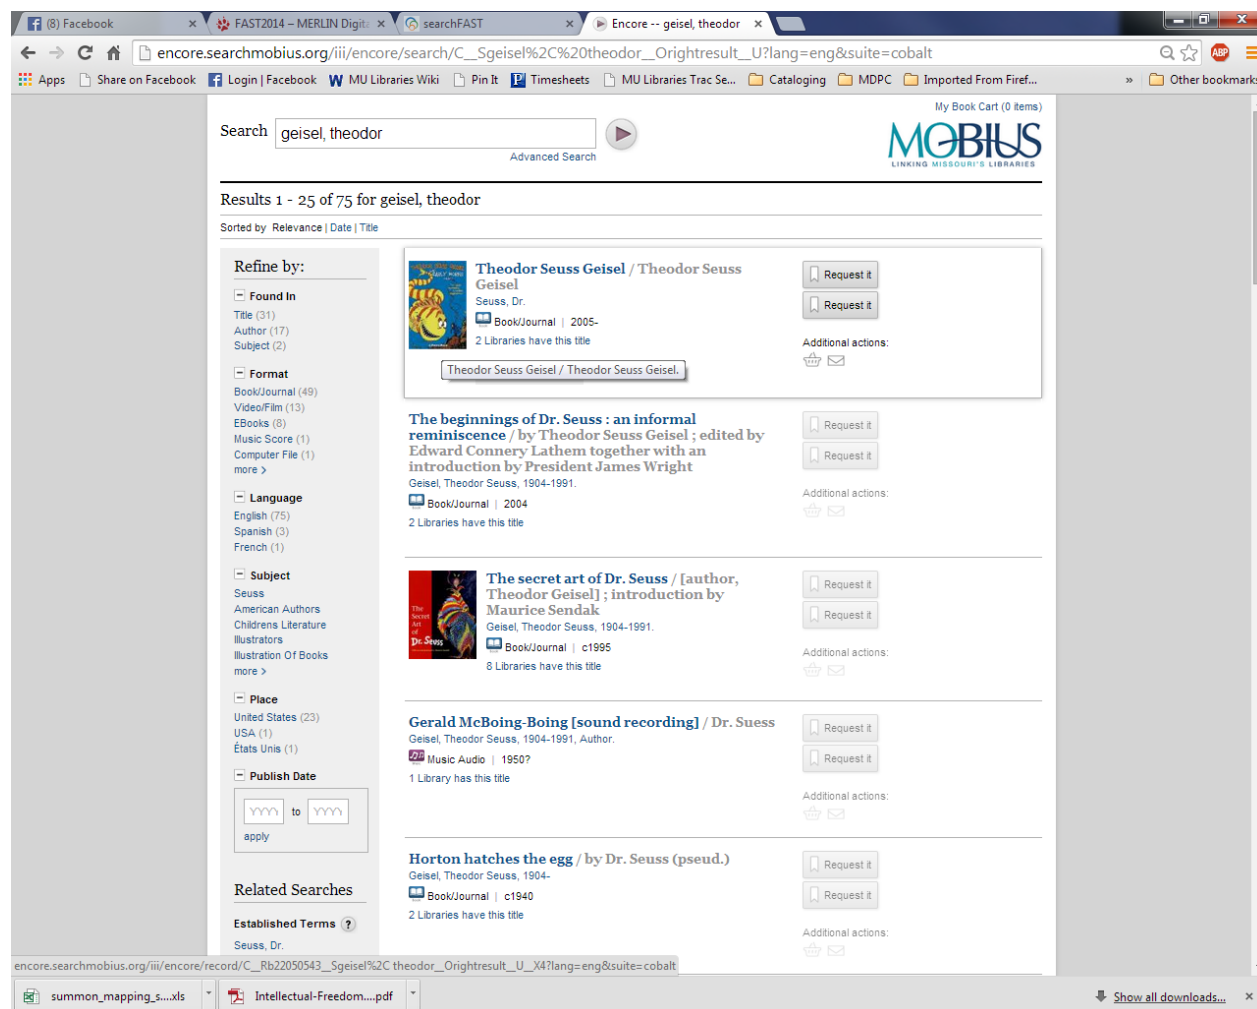

- Enhancement idea for the Inn-Reach summit: What about developing the ability to load up our authority records in the same way that bibs are done and use the master record concept? This would mean we could also have real-time authority control. MCDAC members should play with the Encore test and some of their favorite searches and then MCDAC will discuss a recommendation via email around April 25.

- Chair for 2014-15 : Washington University is next in the rotation and Pat Logsdon has agreed to be the MCDAC Chair starting July 2014.

## 7. Adjourn Meeting

## 8. Minutes submitted by Kathleen Schweitzberger

## Some Examples of Encore Searches and How Authority Control Works in It

The screenshot displays the Encore search interface with the following elements:

- Search Bar:** Contains the text "geisel, theodor".
- Results:** Shows "Results 1 - 25 of 75 for geisel, theodor".
- Sort by:** Options include Relevance, Date, and Title.
- Refine by:**
  - Found In:** Title (31), Author (17), Subject (2).
  - Format:** Book/Journal (49), Video/Film (13), EBooks (8), Music Score (1), Computer File (1).
  - Language:** English (75), Spanish (3), French (1).
  - Subject:** Seuss, American Authors, Childrens Literature, Illustrators, Illustration Of Books.
  - Place:** United States (23), USA (1), États Unis (1).
  - Publish Date:** Includes a date range selector.
- Related Searches:** Seuss, Dr.
- Search Results:**
  - Theodor Seuss Geisel / Theodor Seuss Geisel:** Book/Journal | 2005-. 2 Libraries have this title.
  - The beginnings of Dr. Seuss : an informal reminiscence / by Theodor Seuss Geisel ; edited by Edward Connerly Lathem together with an introduction by President James Wright:** Geisel, Theodor Seuss, 1904-1991. Book/Journal | 2004. 2 Libraries have this title.
  - The secret art of Dr. Seuss / [author, Theodor Geisel] ; introduction by Maurice Sendak:** Geisel, Theodor Seuss, 1904-1991. Book/Journal | c1995. 8 Libraries have this title.
  - Gerald McBoing-Boing [sound recording] / Dr. Suess:** Geisel, Theodor Seuss, 1904-1991, Author. Music Audio | 1950?. 1 Library has this title.
  - Horton hatches the egg / by Dr. Seuss (pseud.):** Geisel, Theodor Seuss, 1904-. Book/Journal | c1940. 2 Libraries have this title.

This was a search for Geisel, Theodor. Note in the facets you see under Related Searches “Established Terms” and then Seuss, Dr. If you click on Seuss, Dr., it will search him and provide a search result. If you click on the information question mark, you get the following information: “The subjects and names in this list might help you find more of what you’re looking for.”

These terms were chosen by librarians to ensure consistency in organizing library materials. For example, if you search for works about couches, you might not find all the relevant resources. Library catalogers chose the word “sofas” to uniformly represent all related terms, such as “couches”, “divans”, and “davenports.” Click one of the listed subjects or names to search using the Library’s authoritative classification terms.”

If one searches Palestinian Liberation Organization, you get a result and an established terms search option to the Arabic form of the name.

We also searched for “Heidelberg catechism” and it gave us the established term option of searching “Heidelberger Katechismus”.
