MQCC -- July 17, 2002

Present: Norma Fair (MU-Ellis), Cindy Shearer (MU-Law), Kathleen Schweitzberger (UMKC), Carol Rilley (UMKC), Wendy Fritzel (MU-HSL), Mary Aycock (UMR), Maggie Trish (UMR), Nancy Stancel (UMKC-Law), David Owens (UMSL), Anna Zaidman (SLU Pius), Richard Amelung (SLU Law), Gary Harris (MCO), Christopher Gould (MCO)

Nancy brought the meeting to order.

Minutes from the last meeting were approved as posted.

LSO update

Gary summarized the discussion and decisions made at the Coordinators' meeting of July 10th.

- There will be a test port set up for the My Millennium product. Lynne Edgar is setting this up. Once available for testing, access will be via: laurel.lso.missouri.edu:2080
- IN LOC was added to the item record added to help track circulating items
- The Coordinators approved removal of the OPAC Gateway. At issue right now is that although billed separately, III says they cannot remove it without removing other features since this product is bundled.
- Course ID search is available in the create list function
- After completing their inventory, MCO will be having III remove unused hardwired ports to save money
- We're also trying to pare down the number of telnet user licenses

Christopher reported that all of SLU Law's CIS records (18,778) have been loaded.

Resolution of the AACP problem has been removed from III Software Engineering. It has been sent back to the III Help Desk. They think that there may be a quick fix. They hope to turn it back on and monitor the transactions. Christopher will ask: 1) Will the product be turned on and stay on? 2) For how long? 3) Should we pay attention to any of the reports the system generates.

Concerning the duplicate/triplicate $d's in the 611 with subdivision, III is working on it.

As for the non-indexing of 711, 780 & 785, LSO has reported the issue to III and they are investigating at this time. [We tested and discovered that $t is being indexed for 700 and 710.]

The coordinators rejected the possibility of passwording (i.e., locking) review files.

Page 2.

Scoped indexing of authority records is not working properly.

zzzzm   suppressed with items / zzzzm unsuppressed with no items.

Gary, Allen and Christopher have modified their internal routines so that this will no longer occur.

Norma: Ellis will be changing their K + cutters from 050 to 090's.

Maggie Trish was chosen as new chair of MQCC.   The following dates have been tentatively reserved for an MQCC meeting: Oct. 23, 2002, Jan 15, Apr. 16, and July 16, 2003

Respectfully submitted,

Richard C. Amelung
Head of Technical Services
Saint Louis University Library.
