II. New Business

1. In the MilCat item record, the new status code for storage is “u”.
2. Issues still exist in public display mode re: serial holdings displays. This is a know issue and is being worked on. It was also mentioned that most SWAN libraries use only one records for all formats: paper, film, and fiche.
3. Authority reports are still backlogged and there is still ongoing cleanup. To try and lessen the amount of reports that we get each quarter, Jim Dutton feels that we would only need to get the deletes (name, title, and subject), the unmatched primary reports and the split headings reports. Each library will continue to work on the weekly headings. MSU will work on dividing the authority reports up among the libraries. Phyllis announced that Jim is willing to have a meeting re: authority training, with a possible date of March 17 at Missouri State University (will confirm date and location later).
4. MilCat issues from Donna Campbell (MSU) were discussed: some diacritics for music symbols are not displaying properly in authority records (Phyllis will contact MCO about this), only a partial list of diacritics is available in MARC 8-Plus (MCO will be contacted), is word searching available for 260 fields? (MCO will be contacted), and what exactly is indexed in a key word search (Phyllis will find out from MCO), and finally Donna said that she'd discovered an OPAC display problem that misinterprets 028 notes. (MCO will be contacted).

III. Next Meeting

The next meeting will be June 22, 2006 with the Coordinator's meeting at 10 AM and the Cataloger's will meet at 1 PM. The meetings will take place at Drury.
