SWAN Coordinators Meeting
September 9, 2005
10:00 AM – Drury University
Agenda

Members Present:

Victoria (DU)   Tony (BBC)

Joe (AGTS)   Mary (CC)

Ed (SBU)   Wendy (MSSU)

Corky (OTC)   Becky (Cottey)

David (MSU)

New Business:

1. Review of web pages pertaining to PIN numbers (David-MSU)
    a. Leave the codes as they are with the name of the institution and then the code
    b. Leave type your PIN. Remember this number. Contact circulation for help" as it is currently.
    c. We should have it stated as campus or institution; except the list should state institution and not campus
    d. Provide several examples of campus ID on the pages
    e. Change the "Please enter a new PIN" to "Please verify PIN" – **David will check with MCO to see if this is hard-coded, if so we will make a request to the enhancement committee of IUG**
    f. Change from campus ID to campus code
    g. **David will make a mock-up of the proposed changes and send them to us this weekend.**
2. Status code for storage
    a. Instead of creating a location code we want to create a storage code – all were in favor of this decision – **SBU will contact the help desk**
3. Featured Lists
    a. Do we want to have one link for featured list and then have them select their institutional lists? – **yes, SBU will contact MCO regarding lists**
    b. What should we name this feature? – **"Featured List"**
4. EDIFACT
    a. January 2007 is expected implementation period of EDIFACT and 13 digit ISBN
    b. No decision is needed until MOBIUS makes a final decision
    c. Corky – BISAC is integrated into the current system now III is making it a separate product at a price of $44,000 plus a $600 maintenance fee per year – **suggest applying for a federal grant to get this feature – Ed would be willing to write and work on this grant proposal**
5. Updates fro MOBIUS advisory committees
    a. MCAG – survey to coordinate changes/enhancements to III, but most of the discussion about EDIFACT

     b.   MERAC – survey about database interested for consortia arrangements; please submit ASAP – suggested to make some database as part of the MOREnet benefits

     c.   MCMAC – development of RFP for state-wide vendor and Sara Parker with possible funding for collection analysis tool (OCLC collection analysis) – Lynn will pass the information to the cluster soon

Old Business:
None

Other:

1. New server performance – is excellent and fast. **We need to find out if the email address is a protected field in a patron load.**

2. Cluster training needs – new update some time this fall – do we have any training needs? Possible cataloging needs, but we will wait to later to see what happens

3. Weird indexing problems – works cluster wide, but not the scoped (e.g., Neitzel can be located by author search but not keyword search)

4. BBC is having videos requested through MOBIUS and SWAN. BBC is canceling these requests.

Next Meeting:
January 27, 2005 at 10:00 AM at BBC/GS for coordinators and 1:00 PM for catalogers
