

Arthur Public Service Meeting
April 12, 2007

The Arthur Public Service Committee met April 12, 2007 from 2:00 PM until 4:00 PM in Missouri State Library. Cindy Bassett, Waheedah Bilal, Tena Edwards, and Lois Marshall were present.

Minutes from January were approved and uploaded to the MCO site.

WebPac Pro – The committee reviewed WebPac Pro in action and would recommend to the coordinators and the directors that we implement this product. We want to load it after the end of the spring semester – Lincoln – May 11th, Westminster – May 4th, William Woods – May 4th. Turn on after May 15th. The State Library has received money to purchase Spellchecker this fiscal year ending June 30th. We want to have WebPac Pro in place in time to order and receive this product.

WebBridge - Each institution needs to select 2 databases to include in the browse and bib panels and send to Tom Leimkuehler by the end of April. The committee looked at WB on the test server at Arthur.missouri.edu:2082 and decided to:

Browse Panel:

Bold the category names

Bib panel – WB panel link shows up in Brief cite but not in the full bib record. This needs to be fixed. Tom needs to check with Lynne that the decisions made on layout were communicated to her regarding the bib panel as they do not appear to be the same as the cluster decisions made. See the file on layout decisions on the committee's MCO page for clarification.

The committee decided that we need to meet with Lynne directly and include Nason and Tom on this meeting so that all these decisions are communicated and so she can communicate with us what is possible for the catalog.

Question: Will WebPac Pro display the WB formatting in the same way? Do we want to wait to work on WB until after WebPac Pro? We will ask for a meeting soon after the MOBIUS conference.

Tutorial creation – The committee will wait on this project until after WebPac Pro and WB are implemented. We will work on it then with the dream of having it done by the end of the year. The State Library is purchasing an updated version of Camtasia to aid in this project.

Other business – Media Management issue brought up by Lucia. This function is used by those using Course Reserves. The issue is the wording of the actual link (?856 field?) in the course reserve. A lively discussion re: copyright ensued. Resolution: change

wording to say, "Click to Open." We will offer this solution to coordinators and directors for approval.

Change of chairs: Starting with next meeting in July, Columbia College will chair the committee and Lincoln will provide the secretary.

Next meeting: TBD - Set time to meet with MCO regarding WebBridge after MOBIUS conference or whatever works for all concerned.

Respectfully submitted,
Cindy Bassett
Missouri State Library
