

Created by: MOBIUS Task Force on Core Products and Services 27 Sep 2010

Adopted by MOBIUS Board of Directors: 25 Feb 2011

Revised: 2 Sept 2010; 3 Mar 2011; 1 May 2013

Replaces: New

Introduction

This schedule of charges includes the following:

- Fees for services and products that are not included in MOBIUS annual membership fee and assessments.
- Fees for services and products available to non-members.
- Fees for services to Associate Members.
- Fees for new members of MOBIUS.

Additional Delivery Stops

The cost of the delivery stop to the main library is included in the membership fee for each member. However, a member may request additional delivery stops at 5 or fewer days per week at additional locations, such as branch libraries. Fees are based on the number of delivery stops per week for an entire year, exclusive of national holidays and library-determined closures. Partial years are pro-rated. There is no administrative fee for this service for any MOBIUS member, including Associate Members.

Licensing of Electronic Databases

MOBIUS negotiates licenses for electronic databases on behalf of member libraries to maximize the value of consortial licensing. There is no administrative fee for this service for any MOBIUS member, including Associate Members.

Implementation of New Innovative Interfaces, Inc. Modules

Member libraries who decide to implement a new, or new to them, Innovative Interfaces, Inc. system module should contact the MOBIUS Executive Director. A quote will be provided for the implementation of a new module based upon the number of hours involved to implement and train the requesting library.

Implementation of New Systems

A library, or group of libraries, interested in becoming members of MOBIUS and participating in the MOBIUS Union Catalog should contact the MOBIUS Executive Director for more information. The cost of membership depends on a number of factors, including whether or not the library(ies) choose to have MOBIUS host or manage their local catalog(s).

A current member library interested in acquiring a new local system with continued participation in the MOBIUS Union Catalog should contact the MOBIUS Executive Director for more information on MOBIUS's ability to host, manage, and/or support the new system.

Implementation of New Non-Innovative Products or Services

Member libraries that decide to implement a new (or new to them) product or service that requires the assistance of MOBIUS staff should contact the MOBIUS Executive Director. A quote will be provided for the implementation of a new product or service based upon the number of hours involved to implement and train the requesting library.

Rates

The MOBIUS Board of Directors approved a \$50 hourly rate on April 23, 2010.
